What we do

01

Source

We work with 200+ suppliers to deliver high quality herbal tea.

02

Process

We operate 5 processing sites across our supply chain.

03

Quality

Our laboratories conduct quality and safety tests on all our products.

04

Collaborate

We work hand-in-hand with our clients to deliver products according to their specifications.

05

Export

We are highly experienced in exporting bulk herbal teas to clients around the world.

Bulk Rooibos

Rooibos (*Aspalathus Linearis*) is endemic to South Africa's Western Cape. We have a variety of expertly crafted blends in different cut sizes. We also have the capacity to work hand-in-hand with our customers to create a product suitable to their needs. All grades available in green/unfermented form.

Super Fine Cut

Finest leaf component, ensures strong infusion and excellent cup colour, ideal for packing into teabags and double-chamber teabags.

Fine Cut

Slightly coarser cut ideal for packing into teabags, leading to a fast infusion. **Signature Fine Cut blends:** Fine Super Export, Super Export

Short Cut

Blend of leaf and stalk components, ensuring full-rounded Rooibos flavour and fast infusion.

Choice Grade

Blend of coarse-cut leaf and block with a softer taste.

Long Cut

Long-cut is perfect for loos teas and for use in herbal blends packed in pyramid teabags.

Granule Blends

Adding Rooibos granules optimizes the batch for high-speed packing, improving the bulk density and flowability without compromising on taste.

Espresso Grade

For use in espresso machines.

Water-soluble extract

For use in ready-to-drink products (hot or cold) and cosmetics.

Bulk Rosehips

We supply high-quality bulk Rosehips to clients around the world. We source and process wild-grown rosehips for various uses. The shells are mostly used for single infusions or blends. Other uses include rosehip syrup, rosehip marmalade, and fruit bars. The powder is used in capsules for canine and equine supplements. The seeds are used in oil pressing for the cosmetic market. Rosehip is high in Vitamin C and a natural antioxidant.

Tea Bag Cut (TBC)

For packing into teabags

Seed and TBC Blends

For packing into teabags

Shells

For loose teas and pyramid teabags

Fine Powder

For cosmetic extraction

Pyramid Cut

For pyramid teabags

Seeds

Bulk Honeybush

Indigenous to the Western and Eastern Cape regions, Honeybush (*cyclopia* spp.), has a Turkish delight and floral nose, often used as a top note in herbal tea blends. It is caffeine-free and low in tannin.

Tea Bag Cut

For packing into teabags

Coarse Cut

For loose leaf teas or for packing into teabags

Bulk African Botanicals

Buchu

(Agathosma betulina)
Dried leaf

Devils Claw

(Harpagophytum procumbens)
Available in dried slices or powder form

Hoodia

(Hoodia gordonii)
Available in different sizes

Our Values

Partnership

We build meaningful and long-lasting relationships with our clients, farmers, and communities.

Progression

We strive to ensure we are at the cutting edge of innovation and stability in the African herbal tea industry.

Preservation

Working with indigenous produce, we understand the importance of sustainable farming practices and honoring biodiversity.

Sustainability

Traceability

Each batch of our tea is fully traceable. Our cutting-edge data management system increases supply chain visibility, improves quality control systems, and enforces accountability.

Aerial Survey

We undertake an annual industry-wide aerial survey, providing invaluable insights that inform sustainable farming.

Farmer training

We host regular sessions with our farmers, making available new information to encourage sustainable and responsible farming practices.

Community initiatives

We run various projects to help upskill and empower people in our rural farming communities.

Thank you!

We look forward to partnering with you.
